'A cup of tea solves everything'. The best teas have the most complex flavour profiles, with natural nuances that ebb and flow on the palate through multiple infusions and linger in the back of the throat long after the tea is swallowed. The taste of tea is determined by many factors and our students were very fortunate to have been able to witness the production techniques and freshness of tea in one of the tea gardens in Assam. Steeped in happiness life seemed 'brew-tea-ful' with a cup of tea!
